Veterinary Medical Board Strategic Plan Objective Tracker 2020-2024

Success Measure: Decrease in average case cost and cycle time over the prior fiscal year. Objectives/Tasks Evaluate the intake processes and eliminate duplicative processes. 1.1.1 Evaluate the intake processes and eliminate duplicative processes. 1/2020: Management shadowed the intake team to review the intake process and reveal unnecessary tasks. 1.2020: Intake no longer utilizes a case tracking log, as the case information can be found in BreEZe and the analyst will be looking at BreEZe when they investigate the case. 1/2020: Paper files are no longer being actively utilized for cases in electronic format as it is costly to produce/store and can be lost.
Decrease in average case cost and cycle time over the prior fiscal year. Objectives/Tasks Evaluate the intake processes and eliminate duplicative processes. 1/2020: Management shadowed the intake team to review the intake process and reveal unnecessary tasks. 1/2020: Intake no longer utilizes a case tracking log, as the case information can be found in BreEZe and the analyst will be looking at BreEZe when they investigate the case. 1/2020: Paper files are no longer being actively utilized for cases in electronic format as it is costly
Evaluate the intake processes and eliminate duplicative processes. • 1/2020: Management shadowed the intake team to review the intake process and reveal unnecessary tasks. • 1/2020: Intake no longer utilizes a case tracking log, as the case information can be found in BreEZe and the analyst will be looking at BreEZe when they investigate the case. • 1/2020: Paper files are no longer being actively utilized for cases in electronic format as it is costly
 processes. 1/2020: Management shadowed the intake team to review the intake process and reveal unnecessary tasks. 1/2020: Intake no longer utilizes a case tracking log, as the case information can be found in BreEZe and the analyst will be looking at BreEZe when they investigate the case. 1/2020: Paper files are no longer being actively utilized for cases in electronic format as it is costly
 unnecessary tasks. 1/2020: Intake no longer utilizes a case tracking log, as the case information can be found in BreEZe and the analyst will be looking at BreEZe when they investigate the case. 1/2020: Paper files are no longer being actively utilized for cases in electronic format as it is costly
 1/2020: All electronic case information is uploaded into BreEZe and is mirrored on the shared drive. 1/2020: Intake checks new complaints to determine whether the subject has a case at the AG's office and informs the assigned analyst if this occurs.
Examine and improve the Expert Witness review process. Q1 2020 Completed Ongoing
 1/2020: The Multidisciplinary Committee, AG's office, and Board staff had multiple meetings to review the current Expert Witness process for inefficiencies. 1/2020: The Expert Witness guidelines were rewritten (as they were simply a copy of the Medical Board's guidelines) and tailored to relate to veterinary-specific examples and processes. 1/2020: Experts need to opine on the standard of care and whether there was a deviation from said standard, rather than providing a specific section of law, as that should be left to the AG's office. 1/2020: A veterinary-specific standard of care case review was drafted and included in the guidelines based on the new format. 1/2020: It was announced that Board experts will attend the Medical Board's expert witness training, as some have in the past to ensure understanding of the administrative process. 3/2022: The Board held a veterinary-specific training for its experts to clarify the review process and field expert questions.
Streamline the AG transmittal process for disciplinary cases. Q1 2020 Completed
 1/2020: Analysts no longer transmit cases to the Attorney General's (AG's) office without obtaining mitigation first. Prior to this change, the assigned Deputy Attorney General would perform this step, which incurs a greater cost. Failure to obtain mitigation prior to transmittal could also hinder our ability to properly assess the strength of a case. 1/2020: Analysts began utilizing the DCA cloud drive to transmit materials to the AG's office, providing a fast, secure method to send case documents. 1/2020: Communication between Board staff and the AG's office has increased and transmittals are marked as "expedite" due to the age of the cases.
Improve field investigation efficiency. Q1 2020 Completed
 1/2020: Management met with Division of Investigation (DOI) management to review all pending field investigations and communicate expectations. 1/2020: Field investigations which were determined to be unnecessary were returned to the Board for completion. 1/2020: Analyst have been trained to only utilize the DOI when an undercover, witness interview, or safety issue is involved. This usage reduction poses a significant cost reduction for the Board. 1/2020: VMB shifted field efforts previously serviced through DOI to the Board's Inspection Unit. This change saves the Board money, as an Inspector is significantly less costly. DOI is still utilized when necessary (as noted above).
1.1.5 Work with OIO to outline Enforcement processes. Q1 2021 Completed

	 3/2021: Received enforcement tables from OIO to map processes 3/2021 - 6/2021: Enforcement managers met with OIO staff to complete process maps 		
	6/2021: Final version process maps sent to Board from OIO		•
	Examine and improve the complaints audit review committee process.	Q3 2020	Completed
1.1.6	 3/2020: The Complaint Audit Subcommittee (Subcommittee) met with Board staff and determined that reviewing cases that were several years old was not useful to implement efficiencies. 9/2020: As a result of the above conclusion, the Subcommittee began reviewing cases which had been finalized for 30 days, permitting the Board to provide feedback and implement potential changes much more quickly. 12/2020: The Subcommittee is now provided with a variety of cases, not just those involving an expert witness, giving them a better picture of enforcement as a whole. 12/2020: The Subcommittee is now given with timeframes and costs for each step of the enforcement process, which helps to identify bottlenecks and unnecessary costs. 12/2020: The Subcommittee is able to access cases for review via the Board's cloud service, eliminating the need for them to visit the Board in-person. 12/2020: The Subcommittee completes a survey regarding the findings of their case reviews, the results of which are communicated to the appropriate parties (Board staff/management, expert witness, DAG, etc.). 12/2021: The Subcommittee has paused its review of finalized cases until the Board is able to send them cases that reflect the new processes put in place. 12/2021: The Subcommittee shifted its focus to work with Board staff to implement a training for expert witnesses, examine current expert resources, review expert qualifications, and update exper witness sample scenarios. 3/2022: The Subcommittee conducted a veterinary-specific training for Board experts. Meeting with Enforcement teams from other Boards to identify		encies. ases which had nt potential involving an of the ud service, se reviews, the ment, expert rd is able to send at a training for and update expert
	Meeting with Enforcement teams from other Boards to identify		Completed
1.1.7	 best practices. 2/2020: The Board's Single Point of Contact began attending the BreEZe Enforcement User Group meetings to discuss the practices of other boards. 1/2020: Board staff and management have reached out to other DCA Boards such as: Nursing, Optometry, Architects, and Medical to discuss investigation, discipline, and probation procedures. 8/2021: Board staff and management reached out to other boards and DCA staff in the Enforcement User Group (EUG) to discuss when certain activity codes in BreEZe should be added and closed. 12/2021: Board management reached out to other boards and DCA staff in the EUG to discuss sending multiple cases concerning one licensee to the AG's office. 3/25/22: Following EUG meeting regarding pending BreEZe Maintenance and Operations (BMO) requests, the EUG elected to resume quarterly meetings. Matt McKinney will serve as co-chair of the EUG. 		
	Implement Breeze changes to streamline the investigative process.	Q1 2022	Completed Ongoing
1.1.8	 2/2021: List of BreEZe codes available obtained and compared to codes utilized by other boards 4/2021: Updated BreEZe module through BMO 7/2021: Updated BreEZe module through BMO to automatically change dispositions on some activities when they're added or updated. 11/2021: Updated BreEZe module through BMO to automatically update case dispositions when certain Activities are added or completed. 3/25/22: Facilitated meeting with DCA's EUG to discuss changes to BreEZe requested by the Board. 		y other boards ns on some positions when
