

MEMORANDUM

DATE	January 3, 2025
TO	Multidisciplinary Advisory Committee (MDC)
FROM	<u>Executive Subcommittee (Subcommittee)</u> Richard Sullivan, DVM Marie Ussery, RVT
SUBJECT	Agenda Item 4. Update, Discussion, and Potential Recommendation from the Executive Subcommittee

A. Proposed Legislation to Repeal Business and Professions Code (BPC) Sections 4838 and 4846.5 and Add Article 3.1 (Sections 4858, 4858.1, 4858.2, and 4858.3) Regarding Continuing Education

BPC section [4838](#) allows the California Veterinary Medical Board (Board) to require registered veterinary technicians (RVTs) as a condition of renewal to continue their education and inform themselves of the developments in the field of animal health technology by pursuing one or more courses of study satisfactory to the Board or by other means deemed equivalent by the Board.

California Code of Regulations (CCR), title 16, section [2086.2](#) requires RVTs to complete at least 20 hours of approved continuing education for the second and subsequent registration renewals. In addition to CE course requirements, CCR, title 16, section [2086.4](#) establishes CE credit for RVTs who teach a qualifying CE course or participates as an expert examiner, as specified. (Since the state exam was repealed, there no longer is CE credit for participating as an expert examiner.)

During the Board’s July 2024 meeting, the California Veterinary Medical Association (CVMA) requested the Board consider an amendment to CCR, title 16, section [2086.4](#) to allow RVTs to qualify for up to two units or hours of CE credit for providing pro bono spay and neuter services to public animal control agencies or shelters, rescue groups, and humane societies.

Pursuant to BPC section [4846.5](#), subdivision (b)(2)(B), veterinarians may earn up to four CE hours providing pro bono spaying and neutering services as follows:

Up to four hours may be earned by providing pro bono spaying or neutering services under the supervision of a public animal control agency or shelter, society for the prevention of cruelty to animals shelter, humane society shelter, or rescue group. The services shall be administered at a facility that is appropriately equipped and staffed to provide those services. The service shall be provided to a household with a demonstrated financial need for reduced-cost services.

The Subcommittee believes allowing RVTs to earn CE hours for performing pro bono animal health care tasks related to spay and neuter services is reasonable and promotes access to veterinary care by finding solutions to affordable spay and neuter services in California.

In September 2024, Board staff and counsels met with CVMA representatives to discuss CVMA's proposal. During that meeting, BPC section [4838](#) was reviewed for Board authority to allow by regulation CE credit for the performance of animal health care tasks. Board counsels determined the statute likely should be amended to clarify the Board's ability to authorize CE credit for performance of pro bono animal health care tasks associated with spay and neuter services.

It also was noted that mirroring the veterinarian spay and neuter services CE credit in RVT regulations likely would not be successful due to vague and ambiguous language such as "*appropriately* equipped and staffed," and "*demonstrated* financial need." CVMA also noted that BPC section [4846.5](#) needed to be revised to strike the reference to the shelters and rescue group supervision, since veterinarians are not required to be supervised to provide spay and neutering services. There were also concerns with what "a demonstrated financial need" meant. For these reasons, it was agreed a legislative proposal was the best option forward.

After reviewing the statutes and regulations related to veterinarian and RVT CE, it became apparent that a larger legislative proposal should be submitted to clean up the CE related statutes.

Currently, there are two statutes and 24 regulations related to CE, most of which are duplicated for veterinarians and RVTs. In addition, the statutory structure for veterinarian and RVT CE requirements are vastly different. Having so many laws to reference in various parts of the Veterinary Medicine Practice Act and supporting regulations causes confusion for licensees trying to comply with their requirements and Board staff trying to conduct CE audits.

As such, the Subcommittee recommends repealing the two current CE related statutes, BPC sections [4838](#) and [4846.5](#), and adding four new statutes (which mostly mirror and/or combine existing laws) under one new article in the BPC. The legislative proposal is attached for the MDC's consideration. If/when this legislative proposal becomes effective, a Section 100 Rulemaking package may be submitted to repeal most CE-related regulations.

The substantive policy changes in the attached legislative proposal, highlighted in yellow, are:

- Adding the ability for RVTs to earn up to two CE hours for performing pro bono animal health care tasks related to spay and neuter services.
- Adding the ability for RVTs to earn up to 16 hours for participating as an expert in an examination preparation workshop for the national licensing examination.

All other changes are intended for clean up purposes only.

The legislative proposal would repeal BPC sections 4838 and 4846.5, and create new Article 3.1, broken into four new sections as follows:

- 4858: Specifies general renewal requirements and various implementation related sections from existing laws.
- 4858.1: Includes existing veterinarian CE requirements and credit and condenses statutorily approved providers. It also addresses previously mentioned concerns related to the four CE hours for pro bono spaying and neutering services.
- 4858.2: Includes existing RVT CE requirements and credit, condenses approved providers, and adds the ability for RVTs to earn up to two CE hours for performing pro bono animal health care tasks related to spay and neuter services.
- 4858.3: Includes existing CE certificate and record requirements.

The rationale for each proposed amendment is provided in italicized brackets. This is included for informational purposes only and is not considered part of the legislative proposal to be submitted to the California State Legislature.

Action Requested:

If the MDC agrees with the Subcommittee’s legislative proposal recommendation, please entertain a motion to recommend to the Board submission to the California State Legislature the legislative proposal to repeal BPC sections 4838 and 4846.5 and add Article 3.1 (sections 4858, 4858.1, 4858.2, and 4858.3) regarding continuing education.

B. Proposed Legislation to Further Amend BPC Section 4841.5 Regarding Veterinary Technician Registration Examination Requirements

The second legislative proposal would further amend BPC section 4841.5, submitted in the Board’s 2025 Sunset Review Report, to update the statutory reference to continuing education in the national veterinary technician exam requirement in accordance with the new CE article proposed above.

Action Requested:

If the MDC agrees with the Subcommittee’s legislative proposal recommendation, please entertain a motion to recommend to the Board submission to the California State Legislature the legislative proposal to further amend BPC section 4841.5 regarding veterinary technician registration examination requirements.

C. Proposed Legislation to Amend BPC Sections 4846 and 4848.1 Regarding Veterinarian License Requirements

The third legislative proposal would amend BPC sections 4846 and 4848.1 to update continuing education cross references in accordance with the new CE article proposed above.

Action Requested:

If the MDC agrees with the Subcommittee’s legislative proposal recommendation, please entertain a motion to recommend to the Board submission to the California State Legislature the legislative proposal to amend BPC sections 4846 and 4848.1 regarding veterinarian license requirements.

D. Proposed Legislation to Amend BPC Section 4883 Regarding Disciplinary Action

The fourth legislative proposal would amend BPC section 4883, subdivision (k), to authorize Board discipline against a license, registration, or permit for the employment of fraud, misrepresentation, or deception in renewing the license as follows:

(k) The employment of fraud, misrepresentation, or deception in obtaining or renewing the license, ~~or registration, or permit.~~

This amendment, identified in double underline, would be added to the existing legislative proposal included in the Board’s 2025 Sunset Review Report and is intended to move the existing grounds for discipline in BPC section 4846.5, subdivision (g), for knowing misrepresentation of continuing education compliance to the corresponding statute relating to obtaining a license. This change would streamline the statutes by maintaining grounds for discipline in one section.

Action Requested:

If the MDC agrees with the Subcommittee’s legislative proposal recommendation, please entertain a motion to recommend to the Board submission to the California State Legislature the legislative proposal to amend BPC section 4883 regarding disciplinary action.
