

MEMORANDUM

DATE	October 7, 2025
TO	California Veterinary Medical Board (Board)
FROM	Jessica Sieferman, Executive Officer
SUBJECT	Agenda Item 7. Review and Discussion on Enforcement and Disciplinary Data Related to AVMA Accredited and Non-AVMA Accredited Veterinary Education

During the July 2025 meeting, the Board requested data related to the disciplinary actions and whether the respondents graduated from AVMA or non-AVMA accredited schools.

According to BreZze records, the Board has taken 372 disciplinary actions since July 1, 2005. Of those, 59 records do not indicate whether the respondents graduated from an AVMA or non-AVMA accredited school. Out of the 313 disciplinary actions with education data, roughly 29% (91) respondents were from non-AVMA accredited schools (7 PAVE, 58 ECVFG, 26 unknown). A breakdown by fiscal year is indicated in the charts below.

While respondents from non-AVMA accredited schools make up 29% of the disciplinary data, they make up 11% of the current license population.
